Bioresin Products

Attestation

BIORESIN FOR FOOD CONTACT

We certify that the transparent casting resins 2MD 1770, 1775, 1784, 1785, 1787, 1790 etc. with the hardeners Biodur M 330, M333, M338 complete systems and polymerized are absolute comestible. They are certified from FDA – standard for contact with comestible goods with Nr. 21 CFR 177.1680 (contact with dry food) as well as with EG – code 93/42/EG for contact with skin under 30 days conformable,

We can certify that for all BIOTHAN – types hardened with hardeners M330 to M339, because of the test results of some similar Biothantypes

It is therefore the user's responsibility to ensure that a suitable process is used to produce materials and articles that conform in every aspect to the above mentioned properties thereof.

Yours sincerely
